Staff Notes

NOTE ABOUT YOUTH DIRECTOR SEARCH:

The search for someone who has the qualifications for (and commitment to fulfill) our Youth Director position continues with a second round of advertisements in a variety of media and the district office. The new deadline for resumes` is September 10.

SPRC representatives will be meeting with Administrative Council representatives in early September to review recent changes in staffing, and the potential to "re-design" the position to better address our programming needs. While formal youth activities will not, as a result of the initial search outcomes, be starting soon, the team and parents have agreed to continue the process until someone who can truly fulfill the job duties and expectations of TUMC is found.
